What's new

at Mitspa House?

The house is ready!

After much work in settling in and preparing, we can now say that the house is ready to welcome our beneficiaries. Thanks to your generous donations, we had the ability to purchase the furniture we were lacking. We also received some comforters, duvets, and sheets from a church in Germany. A big thanks to all of you who support us and are sensitive to our needs! Thank you to all our volunteers who helped us during these months of preparation and set up of the house. Check out the pictures on our blog:

Our first employee !

Since September, we have our first employee: Andreea, a young social worker. She helps Alexia write the various documents for the Mitspa House accreditation as an official maternal center. Majority of the papers have been prepared and we are glad that this task is almost complete.

First authorization!

We are pleased to announce that last week we received the authorization from the Health Department!

Thank you to everyone who has prayed for this first step!

Present challenges
We need your help and support!

A pending authorization !

We still need an authorization to be able to welcome our beneficiaries: the one from the Fire Department. This authorization involves various evaluations of the building, the electricity system, and the emergency situations, which must be carried out by authorized specialists in this field.

Once we have the evaluation in each of these areas, we will be informed of the detection, signaling and fire alarms system we need to install to obtain the authorization. The total cost of all these steps is **$2940 / £2230**. You can help us get this last authorization by your donations and sharing our needs around you!
